- 5v USB light
- Li-Ion battery (replaceable)
1300mAh @ 3.7v DC
- Charge on any USB socket.
- 39 lumens output.
- built in ON / OFF switch
- Separate hanging hook

This Light is designed to provide useful illumination for many uses – eg when camping, fishing, in a shed, greenhouses, gardens (under parasol) etc.

CHARGING INSTRUCTIONS

NOTE: Please fully charge the unit before first use.

1. To charge the Lumi USB please connect the USB plug on the end of the cable to a USB charging port. This could be a phone charger, computer, Laptop or even one of our excellent range of Freeloader solar chargers or solar power hub HUBi.

2. Once the light is connected to a power supply you will see a small LED glowing Red this indicates a charge taking place.
3. The small Red LED will turn off and a Green LED will light up once the unit is fully charged. You can then use the device.
4. To turn on or off the light simply press the Blue button on the base of the light.

Charging status indicators

GREEN ON = fully charged

RED ON = battery charging

RED / GREEN FLASHING = battery is missing or has a loose connection

REPLACING THE BATTERY

Replacement batteries are available at www.solartechology.co.uk

1. Unplug the unit from any charger.
2. Remove the clear plastic cover by gently turning it anti clockwise 1/4 turn.
3. Undo the 4 small cross head screws and gently remove the centre of the light. Please note there is a wire connecting this to the back of the unit.
4. Undo the two small cross head screws holding the battery in place.
5. Remove and replace the battery.
6. Please note when reassembling the unit do NOT over tighten the screws.
