

125W

Rigid MHD Solar Panel

Part code: STPU125

The 125w MHD rigid solar panel features superior shingled monocrystalline solar cells to deliver greater efficiency in a smaller footprint and lighter weight compared to conventional polycrystalline solar panels.

The sturdy anodized aluminium frame complements the solar cells to create a smart all-black panel with an IP67 waterproof rating.

MHD panels are perfect for use on a motorhome, caravan or campervan roof as well as other off-grid power applications. They are supplied with a 10-year module warranty.

A charge controller should be used with this panel to protect the battery from being overcharged and to prevent reverse of current drain.

For optimum battery performance, pair your panel with a **Lifos Go advanced lithium battery**. Connect up to four Lifos batteries in parallel or series to increase the current or voltage.

SPECIFICATIONS

Size	988x670x35mm
Weight (Kg)	7.5
*Typical watts/day (W)	750
*Typical amps/day (A)	23.52
Charge controller	10Ah
Vmp (VDC) nominal voltage	31.9V
Imp (A) nominal current	3.92A
Voc (V)	37.6V
Isc (A) short circuit current	4.15A

**Watts and Amp hours/day based on six hours of average daily peak sunshine hours.*
